

## 【Responsible Business Alliance Declaration】

LITON as a corporate citizen, supports the goals, visions, and rules of EICC. The EICC had announced that it has become the Responsible Business Alliance (RBA) on Oct. 17, 2017. There are 5 main aspects to RBA's codes: labor, ethics, environment, safety and health, and management system.

LITON is obligated to comply with RBA codes on all 5 aspects, which is why the company has taken steps to protect workers' rights, uphold business integrity, implement supply chain management, ensure environmental sustainability, enforce workplace safety and health, and create an efficient management system.
