The explanation of proposal for a cash offering by private placement is as follow:

1. In order to meet the operational growth needs and strengthen the company's financial structure, as well as to diversify and enhance the flexibility of fundraising channels, it is proposed to the shareholders' meeting to authorize the Board of Directors to, based on market conditions and the company's funding requirements, raise medium- to long-term funds through private placement of common shares in accordance with the Article of Incorporation, relevant laws, and the following principles. The following is an explanation of the methods, content, and principles for the Board of Directors to handle the private placement of shares:

(1) The private placement of shares in this offering is limited to a maximum of 13,000,000 common shares with a par value of NT\$ 10 per share. In accordance with Article 43-6 of the Securities and Exchange Act and the “Directions for Public Companies Conducting Private Placement of Securities”, the following information shall be provided:

A. Basis and rationale for price determination:

- (a) The issuance price for this offering will be no lower than 80% of the higher of the following two reference prices and shall not be lower than the par value of NT\$10 per share:
  - i. The simple average closing price of the common shares of the TWSE listed or TPEX listed company for either the 1, 3, or 5 business days before the price determination date, after adjustment for any distribution of stock dividends, cash dividends or capital reduction.
  - ii. The simple average closing price of the common shares of the TWSE listed or TPEX listed company for the 30 business days before the price determination date, after adjustment for any distribution of stock dividends, cash dividends, or capital reduction.
- (b) The actual issuance price of the private placement common shares will be based on a reference price of not less than 80% and shall not be lower than the par value of NT\$10 per share. The specific pricing date and the actual private placement price will be determined by the Board of Directors within the range defined by the shareholder meeting resolution. The determination will take into account the circumstances of the specific parties involved and the market conditions at a later date.
- (c) Rationale for price determination: The determination of the aforementioned price is based on the reference to the Company's stock price and complies with the provisions of the “Directions for Public Companies Conducting Private Placement of Securities.” It takes into account the three-year transfer restriction on private placement securities and is considered reasonable.

(a) The method and purpose of candidate selection:

The target of this private placement is limited to specific individuals who meet the requirements stipulated in Article 43-6 of the Securities and Exchange Act. They must be strategic investors who can generate benefits for the long-term development, competitiveness, and existing shareholder equity of the Company. However, we currently do not have any confirmed candidates. The specifics regarding the selection of specific individuals will be handled by the Board of Directors, and we plan to seek authorization from the shareholders' meeting for this purpose.

(b) The necessity and expected benefits of candidate selection:

Strategic investors who meet these criteria will be considered.

C. Essential reason for conducting private placement:

(a) Reasons for not conducting a public offering: Considering the expedient and efficient nature of private placement, it is deemed advantageous for achieving the objective of attracting strategic investors. Moreover, the three-year transfer restriction on privately placed securities ensures a long-term cooperative relationship between the company and strategic investors. Additionally, authorizing the Board of Directors to conduct private placements based on the actual operational needs of the company will enhance the flexibility and agility of our fundraising efforts.
